Rates – activities

Set time allocations for stops via Rates > Order input > Activities. Duration auto-calculates in loads. View in Operations.

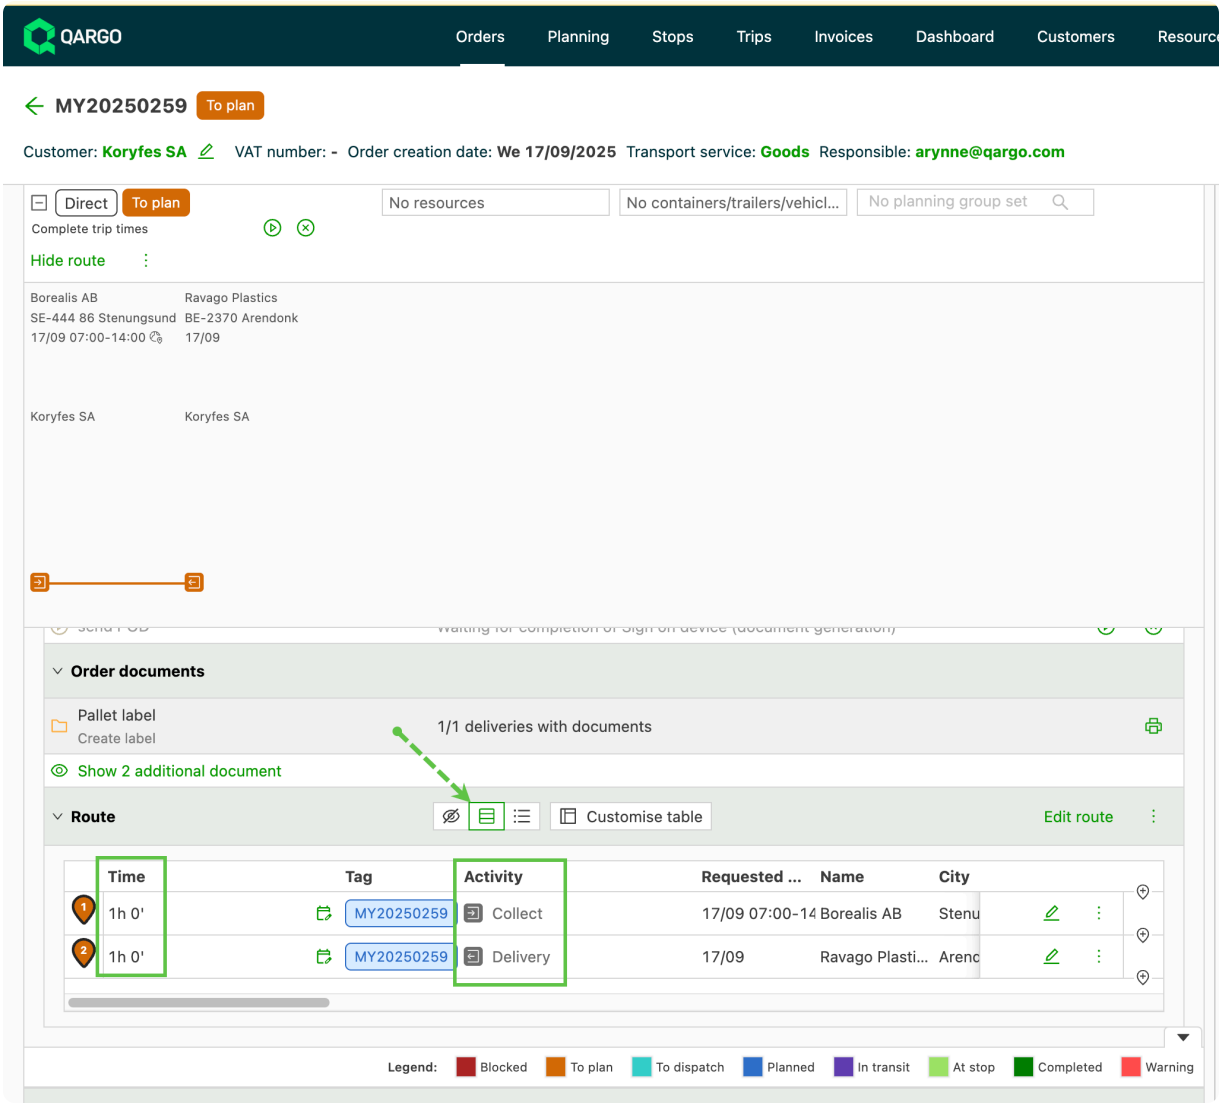

Updated September 17, 2025

Each stop has an activity. All possible activities are listed in Activities.

- Navigate to **Rates > Order input**
- Click **'Activities'** in the left sidebar

- Configure the amount of time to allocate for the activity
- The duration is automatically calculated when that activity is included in a load
- To view in order:
  - Navigate to the **'Operations'** section and show the route details
  - Use **'Block view'** to see each leg by line
  - The **Activity** is shown along with the specified **Time**.
