Add intermodal connections

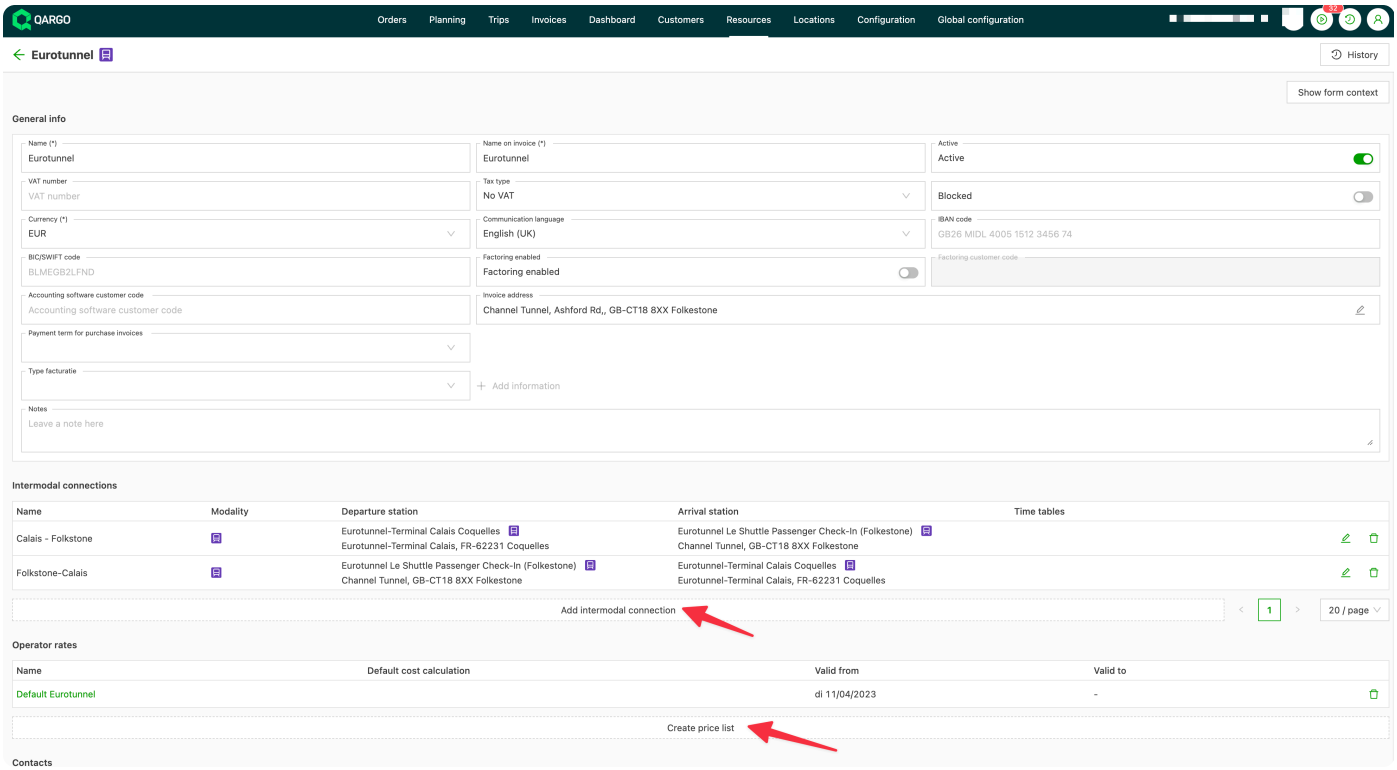

Updated October 24, 2024

If the intermodal operators are added, intermodal connections, timetables and rates can be added to these operators.

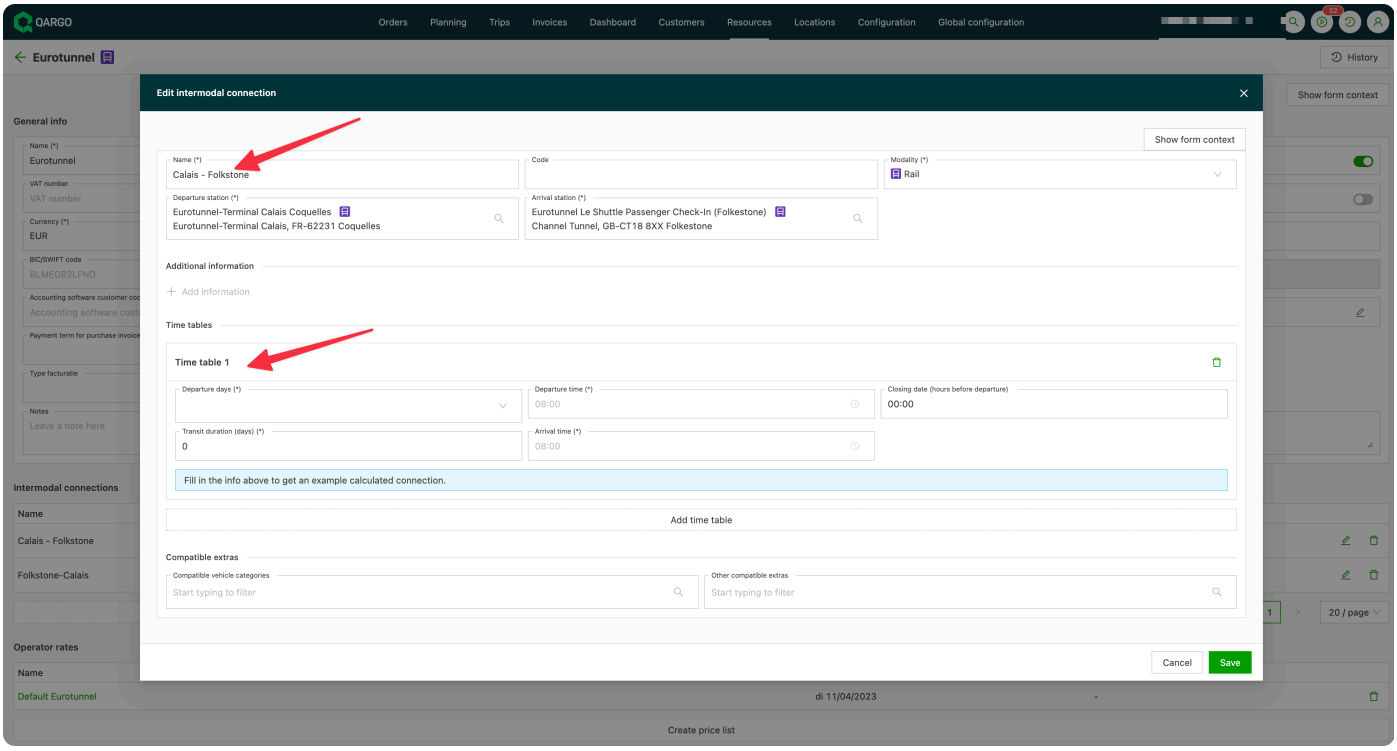

1. Navigate to **Resources**.
2. Click **Intermodal operators**.
3. Click the intermodal operator of choice.

Click **Add intermodal connection**.

A modal pops up where the intermodal connection can be edited and the timetable(s) added.
