Create a quote

Updated April 14, 2026

This article explains how to create a quote.

- Go to **Quotes > Spot quotes**.
- Click **Create quote**.
- Fill in the required details (as when creating an order).

Once the quote is created, it can be sent directly from Qargo to the customer. To do this, first create a task in the configuration to:

- Generate a quote
- Send the quote.

To generate the quote, create a template as explained here.
