Rate card – pallet network: delivery & pallet spaces

This video walks through how to create a price list for a pallet network, which uses the delivery location and the number of spaces for rating.

Updated November 26, 2025

Pallet network price lists can be complex because of the number of variables that need to be considered and incorporated into the price list.

This video walks through one of the typical configurations, which combines a stop location (this example uses delivery) and the number of pallet spaces booked.
