Rate card – PalletNetwork: multi-tier rating

This video walks through creating a price list for a PalletNetwork that uses tiered variables, incorporated into a single price list.

Updated November 26, 2025

Pallet network price lists can be complex because of the number of variables that need to be considered and incorporated into the price list.

This video walks through one of the typical configurations. It incorporates a number of variables that must be included in the price list and applied based on the number of spaces, and it includes regional distance or zones.
