FAQ - Qargo Unlocked Benelux

The presentation from the customer workshop, featuring a deep dive into container operations in trucking, with sessions on product vision, the engineering roadmap, customer spotlights, and a live Q&A with the Qargo team.

Updated June 22, 2026

Container operations workshop — event overview
This workshop brought together Qargo customers for a focused session on container operations in trucking. Attendees heard from across the business, including:

- **Behind the scenes** — an overview of how Qargo's Support, Enablement, and Account Management teams operate
- **Customer spotlight** — a real-world look at how a Qargo customer uses the platform in day-to-day operations
- **Product vision** — Qargo's CEO shared the company's strategic direction and roadmap ambitions
- **Engineering roadmap** — Qargo's VP of Engineering gave an inside look at what's in development and coming next
- **Q&A with account teams** — dedicated time for customers to ask questions, share challenges, and pick up tips and best practices
